LANGUAGE, EXPERIENCE AND CONFIDENCE

WHERE **LEARNING** BEGINS

Study the English Language using Academic Topics that are meaningful at your student's grade and age.

WHY US?

Parents and Students are looking for auxiliary education solutions that will give them an advantage in a competitive world of ever faster change. And English is still the key in the age of globalization.

With Global English Campus, neither parents nor students need to worry about making progress either in academics or in English Language skills.

Both needs are addressed together until the student's Language ability allows them to handle English Only Academics without the need for extra language support. This is our specialty. Your future is safe with GEC.

- ✓ A GEC Placement Test identifies student needs and prescribes lessons at the appropriate language level and age, addressing a broad range of combined academic and language standards.
- ✓ Student responses are analyzed and skills deficits are targeted to ensure a prioritization of focus to balance skills proficiency across reading, writing, listening and speaking.
- ✓ GEC's modular problem and pedagogy engine structure allows the system to automatically assess and intervene, at the same time providing ongoing detailed analytics so teachers can focus on specific individual student needs.
- ✓ The GEC reports dashboards allow all stakeholders (schools, parents, teachers and students) to analyze each student's performance across academic and language skills, but GEC also tracks study habits and social skills at the same time.

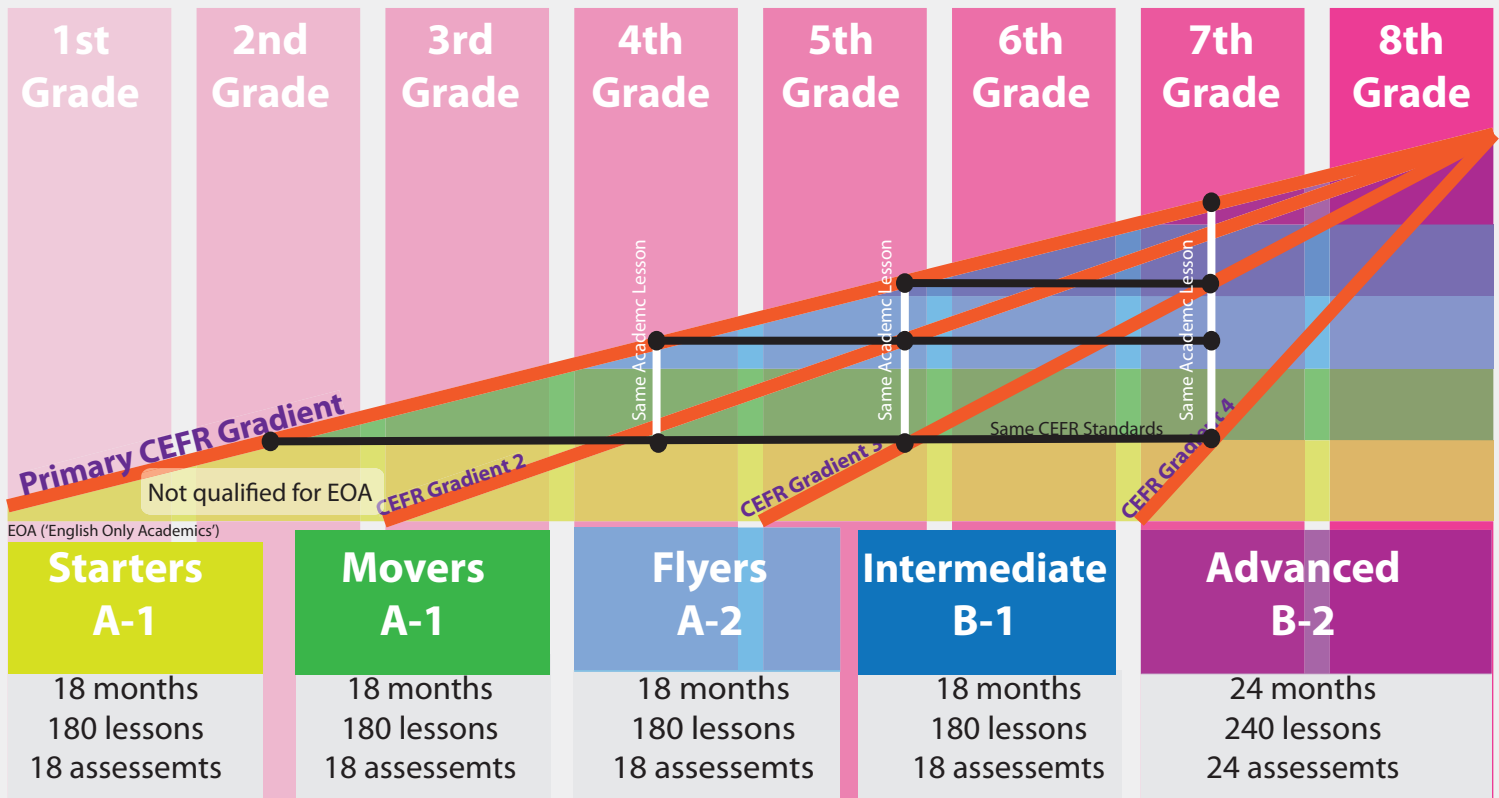

WHAT WE DO

Global English Campus is an organization dedicated to International Student English Language Training.

GEC's focus is to help students become proficient in the English language at an academic level appropriate to their individual grade and age.

In order to do this, GEC has developed a special program that blends language training with K-8 US academic curriculum, where language support lessons are provided for Language Arts, Math, Science and Social Studies in 4 levels of language difficulty. This means all lessons and problems appear in A1, A2, B1 and B2 levels, so students can always study a version they understand--and move upwards. Using the standards for language learning established by Cambridge University (CEFR) over the past 60 years of research into language acquisition, GEC has developed our flagship courses:

English for Academic Success (EAS)

Through careful alignment of language lessons with academic lessons, students gain the skills they need to perform in English Only Academics.

A RANGE OF OPTIONS

STUDY AT HOME - ONLINE - WITH OR WITHOUT A TEACHER

With GEC's systems, there is no disadvantage to self-study from home. In fact, there are many advantages. GEC has both the teachers to augment online study, and the platforms to make self-study effective and worthwhile.

GEC SUPPORTS CLASSROOMS, TEACHERS AND SCHOOLS

With digital learning and coordinated textbooks, classroom learning can take many forms with GEC's EAS. Whether your class has a computer lab or not, GEC's programs deliver the best in Language training.

GEC OFFERS DUAL HIGH SCHOOL DIPLOMAS FOR OLDER STUDENTS

GEC's US High School Diploma program requires only 6 credits of school under certified US teacher support.

With advanced online tools, GEC delivers that support to any students anywhere in the world.

GEC HAS K-12TH GRADE CURRICULUM AND LANGUAGE SUPPORT

GEC recommends getting on GEC's EAS program early and learning academic level language skills by the 5th grade.

Then, stay on the program and earn western education credentials comfortably at the right time.

GEC supports partners and schools to design and implement custom blended learning solutions within the modals depicted here.

A RANGE OF CONTENT AND SOLUTIONS

Phonics and Spelling Rules

Transforms students into master spellers with adaptive learning for phonics and spelling rules.

Covers every major spelling and phonics rule with over 4400 of the most common words.

Covers key phonics skills, blending, segmenting and spelling patterns.

Writing

Project based lessons guide through each step of the writing process.

A complete submission-revisions-grading system with easy mark-up and grading rubrics.

Adaptive Science

Inquiry-based learning using cognitive skill manipulatives for discovery and exploration.

Adaptive Social Studies

Interactive lessons teach state-standard skills with built-in testing and vocabulary.

Test Prep and Review

MATH: Innovative review, adaptive practice, and pre-testing dramatically increases test scores.

READING SKILLS LITERATURE: Innovative review, adaptive practice and pre-testing dramatically increases test scores.

LANGUAGE: Innovative review, adaptive practice and pre-testing dramatically increases test scores.

READING SKILLS INFORMATIONAL: Innovative review, adaptive practice and pre-testing dramatically increases test scores.

Multi-Tiered Reporting

GEC reporting is across the spectrum of student, teacher, and admin performance and needs. Time on task, efficiency of learning, test performance, and all the particulars are available for students, parents, teachers, schools and district level

At a Glance Reporting

GEC has developed a pioneering data flyout view. In this format, any student or any student group has fly-out data that pops up on mouse-over so that data can all be reviewed in the same context and much more easily compared. Insights derived from this type of innovation are deeper and more meaningful than reports that present information abstracted from other tabular perspective views.

Content Adaptability

Curriculum customization allows access to the existing curriculum, where scope and sequence can be adjusted and additional lessons can be added.

About Us :

Our goal is to help more student acquire an academic level English language ability. Even though many international students do not aspire to study abroad, the ability to perform at academic language levels will open up opportunities to them all throughout the rest of their lives. We want the best for our students, no matter what the future holds for them.
